Education

- **BS Computer Science**

  University of Haripur 8th Semester

Summary As a driven Computer Science professional, I am passionate about technology, web development, and continuous self-improvement. I have experience designing complete applications from concept to deployment, combining analytical thinking with practical execution. I am highly adaptable, goal oriented, and eager to use my diverse technical skills to make a significant impact in a dynamic development environment.

Skills

- **Languages & Frontend:** JavaScript, HTML5, CSS3, C++, PHP, React, Tailwind CSS, Responsive Design, DOM Manipulation, ES6+
- **Backend & Databases:** Node.js, MySQL, REST APIs, Database Design, CRUD Operations, Authentication & Security
- **Version Control & Tools:** Git, GitHub, VS Code, Deployment & Hosting
- **Soft Skills:** Communication, Team Collaboration, Leadership, Mentorship, Problem Solving, Attention to Details

Experience

- **Web Development Intern**

  On-Site | *July 2026 - September - 2026*
  - Built dynamic web applications and projects utilizing HTML, CSS, JavaScript, React, Node.js, and Tailwind CSS.
  - Managed source code, team collaboration, and version control workflows using GitHub.
  - Developed responsive user interfaces and implemented full-stack project features from concept to completion.
- **Self-Taught Web Development**

  Remote | Jan 2024 - Present
  - Built multiple web projects using HTML, CSS, JavaScript, PHP, and MySQL.
  - Developed responsive user interfaces and basic backend functionality.
  - Used Git and GitHub for version control and project management.
  - Continuously improving programming and web development skills through personal projects and online learning.

Volunteer Experience

- **Volunteer Interpreter** | Tarjimly *Remote* | Jan 2023 - May 2024
  - Provided on-demand, real-time translation support to break down critical language

barriers for refugees and immigrants.
    - Demonstrated high-stakes communication skill, cultural empathy, and strict adherence to confidentiality guidelines.

Projects

- **Gym Management System**

    - **Tech Stack:** HTML, CSS, JavaScript, PHP, MySQL
    - Developed a web-based gym management system for member registration and management.
    - Implemented attendance tracking, membership records, and monthly fee management features.
    - Integrated database functionality using MySQL for secure data storage and retrieval.
    - Designed a user-friendly interface to simplify gym operations.
- **Interactive Portfolio Website**

    - Designed and developed a personal portfolio with HTML, CSS, JavaScript, and GSAP animations.
    - Implemented smooth scroll effects using Scroll Trigger.
    - Hosted on GitHub Pages and managed version control via GitHub.

Achievements

- **Professional Full-Stack Portfolio:** Built and hosted a responsive full-stack portfolio with local database integration, custom SVG animations, and dynamic themes switching using PHP, MySQL, and JavaScript.
- **Academic & Personal Web Development:** Successfully completed multiple web development projects, applying core coding principles to build functional applications.
